B&G – Report to Meeting for Business - 11th Month 8, 2015

1. Update on Ceiling Work – We are waiting to receive written proposals for the cost of replacing the remaining 5 panels before moving forward with the remainder of the work. We'll review samples of the stained wood to be used, for approval, before having further work completed. Concern was expressed as to wither or not the roof should be replaced before continuing with ceiling repairs. Once we have received proposals, and confirmed the ceiling isn't currently leaking, we can move forward with the repairs to the ceiling panels, replacing the ceiling lights and insulating the attic and duct work. We hope to move forward after our next meeting which is scheduled for 12th month 6.

2. Research was completed on the property insurance, and it's been confirmed that we can't insure the Meeting House and contents for less than our current policy. The policy has the Meeting House structure insured for $510,000, and the contents for $60,000, and includes liability insurance.

3. Next work-day is still scheduled for 11th month 21st.

4. The motion detector security lights on the exterior of the building have been repaired and are now working.

5. Gilbert Optical made us aware of a large hole at the north side of the road entrance. They've contacted the City to make them aware of the needed repairs.
