Finance committee report to business meeting in November, 2015

1. Tom Kennedy is convener for the year. We invite any other Meeting members to join us or our meetings.

2. We believe that the budget should balance and argue against budgeting spending over expected / last year's income. Present budget as of current time.

3. Communications with members. Treasurer to draft a note to all giving financial status as of mid November, and asking for contributions as led. This note to be sent via the e-mail list soon.

Dave also will draft a letter to be sent to all members and our "regular" attenders. The letter will be sent at the same time as the IRS contributions letter (late January / February) and have the same format, but will show a zero for the contribution amount. We want to confirm that our contribution records are correct, and to let people know we hope for their support.

4. The finance committee members have various views on our future, but agree that we will work cooperatively to help accomplish it as part of the long range planning process. We all acknowledge that we'll stay on this property.
