

F&P report to business meeting 3/10/2019

Two sections of Faith and Practice have been sent for consideration.

The first is the introduction to the Queries. We considered this topic two years ago, and offered comments to the Yearly Meeting committee, as did other Monthly Meetings. Based on those comments, the section was re-written, and now is available for review on our web site prior to it being presented to the assembled Yearly Meeting annual meeting 7th month. Our committee, however, will review what they sent and determine if we want to make comments either before then or during the session.

The second is a new re-write of the material currently titled Ministers, Elders and Overseers, and Travel Minutes. It has major changes, primarily by eliminating those titles and recognizing that there are many ways we serve our Meetings. Our Faith and Practice committee has already sent this proposed text to Nominating committee and people in our MEO for their initial review, and we expect that there will be structured opportunities for everyone in our Meeting to discuss and comment on the proposed text soon. The Yearly Meeting committee has asked for our comments by 5th month.

Our faith and practice review committee will meet 3rd month 23 (Saturday morning) at 9AM to begin this planning.
