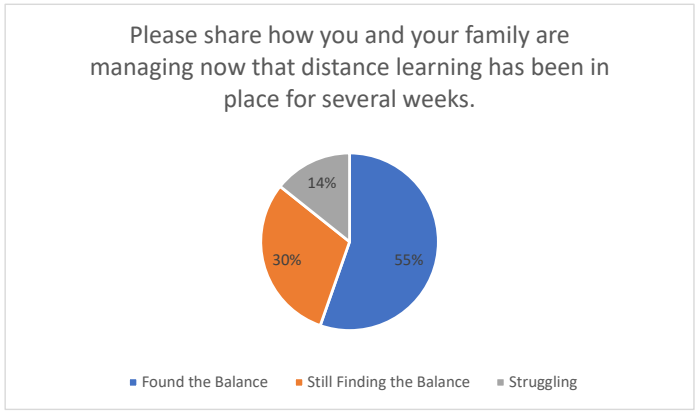
VBFS Distance Learning Parent Feedback - 4.27.2020



Teachers have been great and have added supplemental and optional learning to fill any gaps.

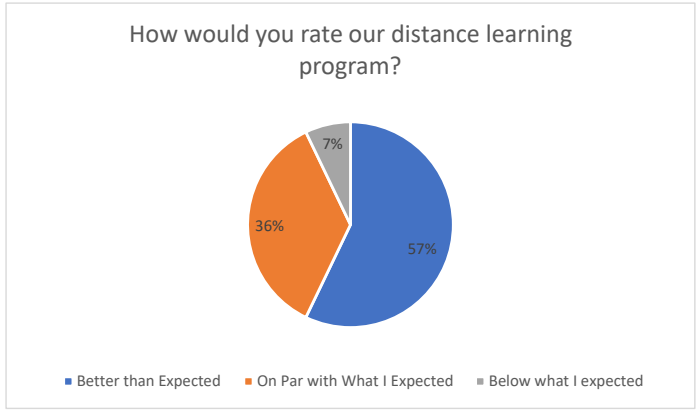
Thanks for all the hard work and great attitudes!

The loss of routine and structure that comes with the classroom has been hard to mirror in our home.

We've found a routine but still find it difficult to make time for the specials classes.

My child misses the in-person contact with friends and teachers, the outdoor environment of the school, and, most of all, getting focused on the school activities.

School and teachers are going above and beyond... it's just too difficult to implement at home.



The cottage program is most difficult for the digital learning experience, which is purely based on the age of the children, at no fault of the teachers.

The packets that were sent home are comprehensive. I really appreciate all the tools we were given.

We knew it would not be easy and we would not get the full learning experience we wanted to provide him. Nevertheless, we support all efforts on keeping our child in the know and offering online instruction until the crisis goes away.

I didn't quite know what to expect! I'm really happy, so I wanted my answer to reflect that

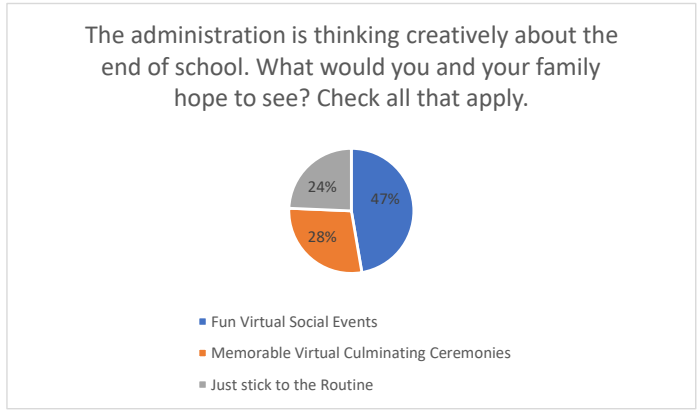
We appreciate how Friends School has continued to teach new concepts. It has been challenging becoming part of the teaching process but I think putting the effort in now will keep them on track for next year.

You have done a super job with the distance learning and we are very happy with all you've done.

The teachers are doing a magnificent job!

We have been very happy with the balance of academics and whole-child centered learning that we have received during this time. I find that the way that our school has interacted with us during this time has solidified our commitment to using Friends to raise whole, healthy, kind, well-balanced children who love to learn.

Just an emphasis on providing a healthy sense of closure and accomplishment for the kids.



The weekly meeting for worship has been a positive experience for my child to get a sense of continuity and to maintain the sense of school community. So, at the very least, a last closing MFW with picture show of the kids in school and looking back at all the fun activities already accomplished this school year would be great to have. I believe that would provide the children with a sense of closure, but also of accomplishment. Thus, any type of closing ceremony of sorts seems important to have.

Just an emphasis on providing a healthy sense of closure and accomplishment for the kids.

Maybe a real picnic late in the summer.

Will there be an award ceremony?

Honor Society Induction would be nice

Older kids could organize fun activities for little kids - at home scavenger hunt might be one simple idea -
