

Building and Grounds report to 5<sup>th</sup> month business meeting:

Building and Grounds committee members have not met recently. Critical work is being reviewed by the Joint Meeting / School Property Task Force.

We hope that Meeting members who are interested in the Building and Grounds functions and responsibilities will join the committee or let us know what you want us to be doing. And come to the Meeting House and look around to see what is happening, or worship with a few of us on Sunday or Wednesday evening.
